Mr Gingerbread and other Costa Coffee winter treats are back

Holding a warm mug and slowly sipping hot coffee is how many of us imagine winter comfort. This will certainly not be lacking in any of the Costa Coffee cafés. It has become a tradition that gingerbread lattes must not be missing from the menu, and this year will be no different. There will also be a new coffee product. This is the rum coconut-flavoured Corto classic.

Customers who love cherry-flavoured chocolate or the legendary Toblerone chocolate will also find something to enjoy. Do you hear...? Is that Mr Gingerbread calling?

To create the first circular catering service, that is Catermat's goal!

Catermat previously offered a composting solution for offices in 2019... and then Covid arrived and showed us all how fragile and unsustainable the system we live in really is. That is also why it was a challenge for Catermat. Yet they continued to do what made sense to them. Namely, investing their efforts into composting. They have recycled thousands of kilograms of waste and planted dozens of trees and shrubs to test their compost in nature. In October, they installed a vertical hydroponic farm at the Catermat studio in Building G. And their activities have come full circle!

So now they can offer you your first circular party! And that means your Mojito, for example, will be made from the mint that was grown by Catermat without having to transport herbs halfway across Europe.

What about you? Join Catermat in writing the story of sustainable catering. They will prepare your Christmas party not only in your space but now also in Building G, which is ideal for team events for up to 50 people.

ASKO drying cabinet

The **ASKO DC7784V.W vented drying cabinet** from the luxury Scandinavian brand gently dries as much laundry as would fit on a 16m line. It knows just what to do with even the most delicate fabrics, such as silk, velvet, and satin. And because it air-dries at low temperatures, it reliably dries even soaked shoes or thin gloves without damaging the material.

It's a great way to look after the whole family's clothes, after strenuous sports activities in winter or in summer for example, while keeping the house clean and tidy. On display in the ASKO designer showroom in the Beta building. It works best when combined with the washer and dryer and other hidden ASKO accessories to create a complete laundry care concept.
