## Exhibition: "100 Years of Transformation Through the Eyes of Photographers"

**KDY:** 18. 3. – 22. 4. 2019, denně od 7:00–18:00 hod.

**KDE:** ALPHA Building, Vyskočilova 1461/2a, Prague 4 (entrance directly from the bus stop Brumlovka)

The traveling exhibition of historical photographs was organized in cooperation with the National Information and Consulting Center for Culture (NIPOS) in honor of the 100th anniversary of the founding of Czechoslovakia. Ten photographic panels present individual pieces of a century of history, each focused on a crucial moment or milestone: the creation of the independent republic, the events at Munich, the end of the Second World War, the February coup, Prague Spring and the invasion of Warsaw Pact troops, protests over the death of Jan Palach, the emergence of Charter 77 and the funeral of philosopher Jan Patočka, the Velvet Revolution, and new life in a democracy. It shows not only dramatic moments and people related to the given period, but it also attempts to capture the atmosphere of the time, changes in environment and lifestyle, and the poetry of everyday life.

**Free admission.**
