# JK Jitka Kudláčková: A green gemstone that you will love!

JK likes colors and high-quality gemstones. This is why, JK likes making jewelry with the emerald... The emerald is one of the Big Three, together with the ruby and sapphire. Because of their typical deep green color, emeralds are popular among jewelers and women like wearing them on special occasions.

JK has a personal relationship with a Colombian family who has been mining and selling emeralds for generations. JK buys the highest quality gemstones directly from this family to make its jewelry.

The value of emeralds, especially that of the purest ones, keeps growing from year to year. High-quality emeralds can be more expensive than some diamonds. The JK staff will be happy to provide you with more information, whether you want to buy emeralds as a piece of jewelry or an investment, because it is important to take the time and to make the right decision when buying jewelry or making an investment.
