## Kiindi: Traditional Thai HOT POT

The chefs at Kiindi are always coming up with fresh ideas to make your mealtimes more interesting. To help warm up these chilly winter months, **try their HOT POT – a traditional Thai food**, the basis of which is strong chicken or spicy beef broth, which is placed on a hotplate in the middle of the table. You gradually add pieces of fresh vegetables or thin slices of raw meat to the broth. **HOT POT is great for groups, ideal for livening up company events or family celebrations.**
