New in JK Jitka Kudláčková

The Czech family jewellers, JK Jitka Kudláčková, have accomplished the difficult task of **creating the crowns for this year's Česká miss and Miss Universe Slovenskej republiky pageant**. All twelve finalists came before the final itself to the representative JK Jitka Kudláčková shop in the passage of the Filadelfie building to see how the crowns were made.

This year's crowns for the winners are literally works of art. JK Jitka Kudláčková's team started with the premise that the crowns are made for the Czech and Slovak winners and tried to bring the common elements of both nations to the crowns.

The first common element is the national colours, which are used in the crowns. White is represented by silver, which is interlaid with red gold and blue topaz. Another common feature typical for both states is lace, so the sides of the crowns depict bobbin lace. In addition to gold and silver, you will also find two topazes, seven brilliant cut diamonds and twenty-one pearls, nine of which are pink and twelve white. **The value of the crown is approximately CZK 400 000.**
