Travel to work in comfort without any overcrowding or long waits

Are you returning to your office after your summer break and do you predominantly use public transport to get there? Would you prefer to avoid overcrowded buses or is the weather simply not conducive to walking?

We have responded to the anticipated increase in passenger traffic on public transport on the Budějovická – Brumlovka route by increasing the frequency of the BB1 shuttle bus (Budějovická – Brumlovka – Delta). Two electric buses will supplement the regular city transport lines which will also be returning to their standard operating mode. You can get to work in comfort and without any long waits or overcrowding.

We will monitor the situation and, if these buses become overloaded, we will also open the BB2 line on the Budějovická – Filadelfie – Brumlovka route. Follow the current information at [bbcentrum.cz](https://www.bbcentrum.cz) or on the [Brumlovka FB profile](#).

A traveler's evening: Santiago de Compostela

WHEN: Wednesday, September 8, from 5:30 pm

WHERE: Sommellerie, Filadelfie building, Želetavská 1525/1

The original religious pilgrimage to Santiago de Compostela to see the remains of Saint Joseph, by means of which the faithful expressed their devoutness and repentance, has a completely different character today. Pilgrims have other reasons to make the journey. No matter whether it involves hiking, the constantly changing natural scenery, or getting to know oneself, the pilgrimage to Santiago has become so popular that it has been included in the UNESCO register of world heritage sites.

Our guide will be the experienced pilgrim Petr Hirsch, who has undertaken the journey to the famed Santiago de Compostela twice.

The traveler's evenings are held in cooperation with the Sommellerie wine bar.

UGO Dužinky – circular biscuits

The story of the new circular biscuits starts at the place where fresh fruit is transformed into 100% juice in UGO bottles. The de-juiced pulp does not end up as leftover waste from production but is once again used as a raw product.

Organic ingredients are added to it at the Zemanka Organic Bakery and it is used to bake delicious biscuits and crackers: DUŽINKY.

This is how to eat sweet things in a healthy way and without any waste :-)
